National Academic Depository (NAD)

Background

Academic institutions such as Universities, Institutions of National Importance and School Boards, issue academic awards to students including degrees, diplomas and certificates along with marksheets and evaluation reports at the secondary, higher secondary and higher education levels.

Records maintained in papers and registers are liable to spoilage over a period of time due to moisture and heat. They are also susceptible to other hazards like fire and rain etc. Students often face difficulties in obtaining copies of their certificates/marksheets whenever they are lost or destroyed or when students want more copies in original. Retrieval of old records maintained in paper or registers is cumbersome.

Maintaining academic awards in an electronic depository would provide benefit to educational institutions, students and employers by enabling online access of academic awards which will eliminate the need for persons to approach educational institutions for obtaining transcripts of such awards or marksheets for verification. It would also eliminate fraudulent practices such as forging of certificates and marksheets, by facilitating online verification thereof.

The vision of National Academic Depository is born out of an initiative to provide an online store house of academic awards

National Academic Depository (NAD)

National Academic Depository (NAD) is a 24X7 online store house of all academic awards viz. certificates, diplomas, degrees, mark-sheets etc. duly digitised and lodged by academic institutions / boards / eligibility assessment bodies.
